Notice of Allowability

Part of Paper No./Mail Date 20040624

U.S. Patent and Trademark Office PTOL-37 (Rev. 1-04) Art Unit: 3676

DETAILED ACTION

Allowable Subject Matter

Claims 1-17 are allowed. The following is an examiner's statement of reasons for allowance: The claims are allowable over the prior art of record because the teachings of the references taken as a whole do not teach or render obvious the combination set forth, including that of a self-adjusting lock assembly with a latching stud, and a latching assembly comprised of a first jaw plate and a second jaw plate, each with movement control arms for enabling longitudinal movement of the jaw plates, for operative locking engagement with the latching stud, and a control member in co-operatively engaged with the control arms of the first and second jaw plates, and constructed for causing simultaneous, longitudinal movement of the jaw plates (claim 1, lines 29-33; claim 15, lines 49-64; claim 16, lines 22-25, and claim 17, lines 36-41, and75-80).

U.S. Patent Number 4,796,930 to Baynes discloses a self-adjusting lock assembly (figure 1) comprising a latching stud (34), and a latching assembly (figures 3 and 5) having a first and a second jaw plate (76), each with movement control arms (column 2, line 65-column 3, line 4) for enabling longitudinal movement of the jaw plates. However, Baynes does not disclose the use of a control member to cause simultaneous longitudinal movement of the jaw plates.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
